

The self-set demands on our work are high – for we rank among the best worldwide in our sector. We owe this above all our highly qualified employees and engineers who daily realize innovative lines for production of wallpaper, floor coverings, film and/or foil or technical textiles.

For our “IT“ Team at our Bocholt site, we are looking, for the next possible date, for an

IT APPLICATION MANAGER (ERP) (m/f/d)

Your Tasks

- Accompaniment of the introduction of SAP S4HANA throughout the company
- Operation, further development and optimisation of the current (INFOR LN) and future (SAP S4HANA) ERP system landscapes
- Familiarisation with and specialisation in selected ERP modules
- Analysis, optimisation and automation of business processes in close cooperation with the department managers
- Advice and support for people in charge of the process, key users and end users
- Development and monitoring of interfaces for the connection of third-party systems
- Documentation of process and system modifications

Your Profile

- Computer science studies or dual vocational training in the IT field with a successful degree
- Profound professional experience in a comparable position in the ERP environment, several years of experience in process and project management
- Experience in dealing with workflows and interface technologies
- Administration experience (Windows Server) and programming experience
- Analytical and conceptual thinking and assessment skills
- Strong communication and presentation skills
- Flexibility and resilience in special situations
- Autonomous working style, self-responsible and responsible action
- Enthusiasm for innovation and affinity for technology

You can expect a diversified range of tasks with a wide range of creation and development possibilities. We look forward to receiving your informative application documents (.pdf document) stating your salary expectations and the earliest date you could start.
